

## [2017 New Updated 70-334 New Questions From Lead2pass Free Downloading (21-30)]

2017 April Microsoft Official New Released 70-334 Dumps in Lead2pass.com! 100% Free Download! 100% Pass Guaranteed! 2017 get prepared with fully updated Microsoft 70-334 real exam questions and accurate answers for 70-334 exam. Lead2pass IT experts review the 70-334 newly added questions and offer correct Microsoft 70-334 exam questions answers. 100% pass easily! Following questions and answers are all new published by Microsoft Official Exam Center: <http://www.lead2pass.com/70-334.html>

**QUESTION 21** Hotspot Question You need to ensure that the Skype for Business Server 2015 infrastructure meets the security requirement for conferences. In Skype for Business Control Panel, which setting should you modify? To answer, select the appropriate setting in the answer area. Answer: QUESTION 22 You need to identify the minimum number of required public IP addresses for each Skype for Business Server 2015 component. How many public IP addresses should you reserve for each component? (To answer, select the appropriate number servers in the answer area.) A. Edge Servers per site: 0 B. Edge Servers per site: 1 C. Edge Servers per site: 2 D. Edge Servers per site: 3 E. Front End Servers per site: 0 F. Front End Servers per site: 1 G. Front End Servers per site: 2 H. Front End Servers per site: 3 I. Office Web Apps servers per site: 0 J. Office Web Apps servers per site: 1 K. Office Web Apps servers per site: 2 L. Office Web Apps servers per site: 3 M. Microsoft SQL Servers per site: 0 N. Microsoft SQL Servers per site: 1 O. Microsoft SQL Servers per site: 2 P. Microsoft SQL Servers per site: 3 Answer: CHKPE Explanation: Contoso must minimize hardware and software purchasing costs, while guaranteeing performance levels for all Lync Server 2013 workloads. If a single component fails, all Lync services must remain available without the need for manual intervention. Performance degradation is acceptable during a component failure state. For the number of users, 3 FE servers are required. In the event of a failure, one server could not handle 15,000 users. SQL mirroring is the recommended database HA solution in Lync 2013. To avoid manual intervention, you need a third server to act as a witness server. You could use a failover cluster using two servers but this tends to be more expensive in terms of hardware cost. QUESTION 23 You need to identify the dial-in conferencing configurations for sales department users. Which two configurations should you use? Each correct answer presents part of the solution. A. Create a user-level conferencing policy. Assign the conferencing policy to the sales department users. B. Create a user-level dial plan. Assign the dial plan to the sales department users. C. Create a new dial-in access number. Assign the dial-in access number to a dial-in conferencing region. D. Create a user-level voice policy. Assign the voice policy to the sales department users. E. Create a new meeting configuration. Assign the meeting to a site. Answer: BCE Explanation: A. Create a user-level conferencing policy. Assign the conferencing policy to the sales department users. B. Create a user-level dial plan. Assign the dial plan to the sales department users. C. Create a new dial-in access number. Assign the dial-in access number to a dial-in conferencing region. D. Create a user-level voice policy. Assign the voice policy to the sales department users. E. Create a new meeting configuration. Assign the meeting to a site. QUESTION 24 Three months after you deploy Skype for Business Server 2015, you must modify the configuration to meet the technical requirements. Which Skype for Business Management Shell cmdlet should you run? A. Set-CsMobilityPolicy B. Set-CsClientVersionPolicy C. Set-CsDeviceUpdateConfiguration D. Set-CsClientPolicy E. Set-CsClientVersionConfiguration Answer: C Case Study 5 - Litware, Inc. (Question 25 - Question 30) Overview General Overview Litware, Inc., is an international manufacturing company that has 4,000 employees. The company has a sales department, a marketing department, a research department, and a human resources department. Litware has a partner company named Fabrikam, Inc. Fabrikam has an office in Paris. Fabrikam uses a XMPP-based instant messaging (IM) solution. Physical Locations Litware has seven offices located throughout North America and Europe. Litware has two data centers. The data centers are located in New York and London. All communications for the North American offices are routed through the New York data center. All communications for the European offices are routed through the London data center. The number of users in each office is shown in the following table. Existing Environment Active Directory Environment Litware has an Active Directory Domain Services (AD DS) forest named litwareinc.com. The forest contains a single domain. All domain controllers run Windows Server 2008 R2. Each office contains five domain controllers. Each office is configured as an Active Directory site. Lync Server Environment Litware has a Lync Server 2013 infrastructure that contains two servers in the New York office. The servers are configured as shown in the following table. The SIP domain is litwareinc.com. Litware has a Microsoft Exchange Server 2013 organization. Problem Statements Users in the London office report poor video quality during conferences. Requirements Business Goals Litware wants to minimize the costs associated with purchasing hardware and software. Planned Changes Litware plans to migrate the Lync Server 2013 infrastructure to Skype for Business Server 2015. The migration will have a coexistence period of six months. Litware plans to implement the following components as part of the planned migration: - Persistent Chat - Unified contact store - Enterprise Voice for all users - A central site in each data center - A branch site in each branch office - A Front End pool in each central site - Skype for Business Phone Edition

devices- Pool pairing Litware plans to create a federation relationship with Fabrikam. Technical Requirements Litware identifies the following technical requirements for the planned migration:- Users must be able to use all Skype for Business Server features if a single server fails.- Users must be able to connect to the Skype for Business Server infrastructure if a single central site fails.- Members of a group named Temp\_Contractors must be prevented from using Skype for Business when they connect remotely.- Only users in the human resources department must be able to access and discover a persistent chat room named HR Confidential.

Security Requirements Litware plans to deploy remote access. Some users work remotely from their customers' offices, which have firewall restrictions. All of the remote users must be able to connect to the Skype for Business Server 2015 infrastructure by using TCP port 443.

QUESTION 25 Drag and Drop Question You need to move the Central Management store during the planned migration. Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. Answer: QUESTION 26 You need to plan for the implementation of the DHCP configurations for the Skype for Business Phone Edition devices. Which three configurations should be applied to the Skype for Business Phone Edition devices from DHCP? Each correct answer presents part of the solution. Choose three. A. the IP address of a time server B. the IP address of a Mediation Server C. the URL of the certificate provisioning service of the Skype for Business Server pool D. the SIP domain E. the FQDN of the Lync Server pool registrar Answer: ACE

QUESTION 27 You need to implement the planned unified contact store. Which three actions should you perform? Each correct answer presents part of the solution. Choose three. A. From a server that has Skype for Business Server 2015 deployed, run the New-CsPartnerApplication Skype for Business Management Shell cmdlet. B. From a server that has Exchange Server 2013 deployed, run the ExchUCUtil.ps1 script. C. From a server that has Skype for Business Server 2015 deployed, run the Set-CsUserServicesPolicy Skype for Business Management Shell cmdlet. D. From a server that has Exchange Server 2013 deployed, run the Configure-EnterprisePartnerApplication.ps1 script. E. From a server that has Skype for Business Server 2015 deployed, run the Set-CsClientPolicy Skype for Business Management Shell cmdlet. Answer: ACD

QUESTION 28 Drag and Drop Question You have a Skype for Business Server 2015 environment. You plan to deploy a Persistent Chat server. You need create the chat room for the Human Resources department. Which three actions should you recommend? To answer, move the three appropriate actions from the list of actions to the answer area and arrange them in the correct order. Answer: QUESTION 29 You are evaluating a disaster recovery solution for the Front End pools. You need to recommend the solution for restoring access to the Central Management store if a Front End pool fails. Which Skype for Business Server 2015 cmdlet should you run? A. Invoke-CsPoolFailover B. Invoke-CsManagementServerFailover C. Import-CsConfiguration D. Move-CsManagementServer Answer: B

QUESTION 30 Drag and Drop Question You are planning the Skype for Business Server 2015 migration. You need to identify the management tools that must be used to achieve the following migration tasks during the coexistence period: - Move users to Skype for Business 2015.- Add Skype for Business servers to the environment.- Remove Lync Server 2013 servers from the environment. Which tools should you use? To answer, drag the appropriate management tools to the correct migration task in the answer area. Each tool may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content.
